valínos®
THE ORIGINAL

CUSTOM-MADE FOR REAL WALKING FEELING

VALINOS®

valinos is an idea born of the ambition to provide people with the best orthopedic support for their feet in every situation. They should be able at all times to enjoy insoles that are not only comfortable, but trendy and individual, too. The goal of the overall concept is a high-quality product that combines individual design wishes with the foot care the customer requires. The valinos series offers you modern leisure time footwear that agrees with your feet and legs.

HOW ARE VALINOS MADE?

Based on measurements of the customer's feet, the footbed is adapted to individual requirements. The latest CNC milling technology, certified materials and considerable craftsmanship combine to create a long-lived high-quality product.

WHAT DO VALINOS LOOK LIKE?

No two pair are alike. The wide variety of possible combinations keeps creating new compositions. In this way, the customer obtains unique footwear that is perfectly tuned to his or her wishes and needs.

valinos are suited for all those who love special things and don't want to do without incomparable comfort.

FOOTBED CONFIGURATION

BEACH · FIT · SANDALS

BASIC

This model is created from bedding material and consists of a footbed, strap and outsole.

ADVANCED

MIDSOLE

This model consists of bedding material as well as color-matched midsole. The inclusion of a midsole not only enhances the shoe's visual effect, but strengthens and cushions it as well.

ROUND

This model created from two different bedding materials. One is the footbed material, the other is the Round in a contrasting color.

LINE

This model is created from two different bedding materials. One is the footbed material, the other is the Line in a contrasting color.

PREMIUM

ROUND + MIDSOLE

This model is created from a bedding material, a Round material and midsole. This shoe offers both wearing comfort and top-end design.

LINE + MIDSOLE

This model created from a bedding material, a Line material and a midsole. This shoe offers both wearing comfort and top-end design.

BEZUG

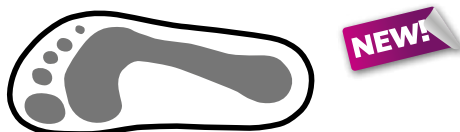

This model is created from a bedding material and one of five available covers glued to it. Depending on the selected cover's composition, it can provide sweat absorption or a warming effect.

BEDDING VERSIONS

VALINOS

KONTUR

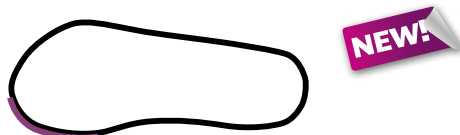

available for the models beach, fit and sandals

Besides our footbed configurations Line and Round, Kontur offers you a footbed with additional special amenities. The foot shape is milled from twin-layer bedding material. The required corrections remain unchanged.

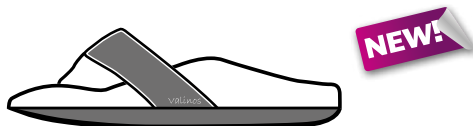

HALLUX

available for the models beach, fit and sandals

Our Hallux model is adapted to the specific needs of patients with hallux problems. The forefoot area then has a narrower shape and the corrections required for a comfortable gait are realized.

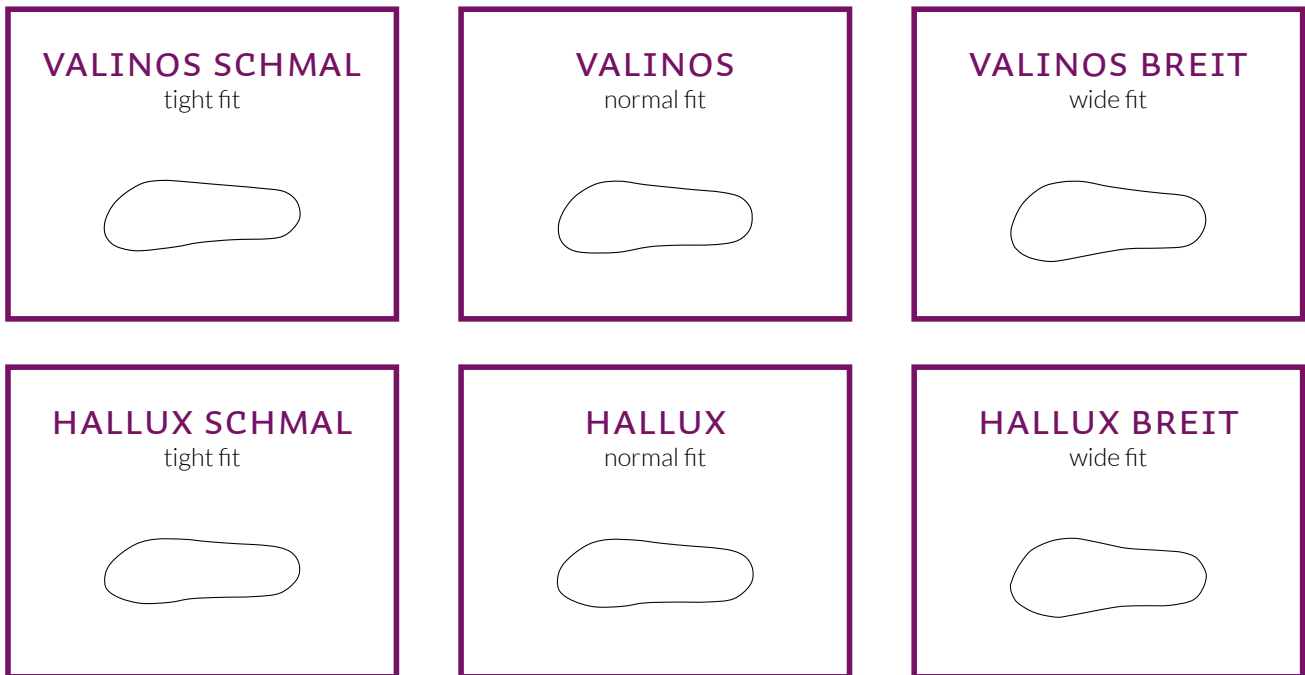

MID-FOOT ROCKER RELAX

The optimum version of our valinos features our unmatched relax mid-foot rocker soft for an effortless gait with maximum relief. This version is just right for customers suffering from painful toe joints or an overloaded forefoot.

FOOTBED SHAPES

valinos are a one-of-a-kind product perfectly adapted to your foot. So that you can enjoy 100% custom comfort, we tune the footbed not only for shape, but also dimension it to fit the shape of your foot perfectly.

SPECIAL SIZES

All valinos models can be ordered in special sizes. This allows us to give each foot individual treatment. Ball and instep measurements are required to produce such special sizes.

BEACH

OUR CLASSIC MODEL

Our valinos beach series combines that best that a trendy shoe and an individual footbed can currently offer. Correction is configured to enable fatigue-free walking without incorrect weight bearing. The toe area is modeled to conform to your own toe shape.

Modeling ensures perfect valinos hold without provoking the toes to claw. Every valinos is modeled and designed according to the wearer's foot measurement data. In addition, foot corrections are undertaken on the basis of individual requirements. The special insole design grips your heel, thus preventing it from inverting as with „flip-flops“.

BEACH CROSS

BASIC

Our valinos for correcting hallux valgus deviation

The special valinos footbed supports the correcting effect of toe and ball straps to give your foot a unique kind of relief. With each step, valinos cross models provide active correction of hallux-valgus deviation. The individual shape of the footbed and individually coordinated toe correction make them an effective aid. Their individuality ensures incomparable usefulness.

1. DIAGNOSIS

Hallux-valgus-deviation

2. FUNCTIONALITY OF THE STRAP

The strap exerts precisely predetermined tension to correct the big toe.

This positions the big toe as well as position possible and achieves a therapeutic effect from maximum straightening of the big toe.

3. FUNCTIONALITY OF THE OUTSIDE STRAP

The strap exerts predetermined tension on the ball of the big toe.

This tension stabilizes the metatarsophalangeal joints (MTP joints) and supports the correcting effect of the tension exerted by the other strap.

4. RESULT

Due to compensation between the straps, a tension arises that can markedly soothe hallux-valgus problems.

The straps also have cosmetic function by covering the exposed ball of the MTP joint.

FIT

ESTABLISHED AT IT'S BEST

This valinos version is based on the proven footbed of our valinos Beach models.

Since the forefoot is equipped with only one strap, valinos Fit models are very well suited for use as training and therapy devices and for activating the foot musculature.

The footbed is adapted to the wearer's individual requirements on the basis of foot measurements.

SANDALS

FOOTHOLD AND WEARING COMFORT

The sandals version is based on the special and proven footbed design of our valinos Beach models.

The special requirements for wearing our valinos sandals models are considered and integrated into it, beginning with the footbed shape. This results in maximum wearing comfort.

For sandals, straps are available with 2 or 3 buckles. For customers with special foot problems, a 2-buckle strap is available together with a heel strap. This gives the wearer greater security and better hold.

valinos sandals are well suited for use as slippers and can be worn all year long.

FORMEN

valinos is a shoe produced individually for your foot and your needs. For you to enjoy 100% fitting comfort, we precisely coordinate not only the shape of the footbed to the shape of your foot, but to its outside dimensions as well.

To make this possible, we offer the valinos footbed in 7 different widths. Widths can be selected based on previous valinos shape, or based on our new hallux-shape. Entirely individually adapted to the shape of your own foot.

VALINOS TIGHT tight fit

VALINOS normal fit

VALINOS WIDE wide fit

SPECIAL SIZES

for extra small, wide feet or feet with deformities

For feet with special requirements, there are special sizes. The valinos shape is then adapted individually to the shape of their foot. Especially narrow or also especially wide shoes can then be produced.

HALLUX TIGHT

INSOLES

VALINOS

valinos insoles offer the proven benefits and comfort of our valinos. valinos insoles can deliver these characteristics 100%, because we match insole shape and material to your particular intended use.

INSOLES

APPLICATION AREA / DESCRIPTION

VALINOS-ALLDAY

The comfortable basic insole for daily wearing on uncomplicated feet – suitable for comfortable shoes.

Recommended material: pedsoft 2

Cover: peddur (durable, wear-resistant, valuable)

VALINOS-ELEGANZA

An extremely fine insole without either heel cup or pelote. Anatomical transverse arch support. Longitudinal arch modeling with counter-bearing heel waist. The insole combines relief with functional correction. It has been specially developed for wearing with high heels and very fine and narrow shoes.

Recommended material: Thermocork + Basis pedhard

Cover: peddur (durable, wear-resistant, valuable)

VALINOS-BUSINESS

Counteracts strong outward supination of the forefoot by inward pronation. Toe correction D II-V strengthens the corrective effect and provides high wearing comfort. Suitable for elegant business shoes.

Recommended material: pedsoft 2 + Basis pedhard

Cover: peddur (durable, wear-resistant, valuable)

VALINOS-CHILD

The proprioceptive pulse generated by this children's shoe especially stimulates the lower leg muscles. This insole is used prophylactically in cases of mildly articulated feet. Suitable for firm children's shoes.

Recommended material: pedmedium

Cover: peddur (durable, wear-resistant, valuable)

VALINOS-WORKER

Comfortable, orthopedic function insole with maximum corrective effect that feels very nice to wear thanks to the insole's special properties and craftsmanship. Suitable for all comfortable shoes and for wide-cut work shoes, as well.

Recommended material: pedsoft 2

Cover: peddur (durable, wear-resistant, valuable)

VALINOS-SPORT

Suitable for closed sports shoes.

Recommended material: pedmedium

Cover: peddur (durable, wear-resistant, valuable)

VALINOS-DIABETES

A very wide cut insole for therapeutic and custom-made shoes. Modeled according foot shape, this insole works by bedding the foot in very comfortable heel and ball areas. This insole is applied solely to therapeutic and custom-made shoes.

Recommended material: pedcom 3 white

Cover: peddur (durable, wear-resistant, valuable)

VALINOS-PEDREFLEX

The special materials mixture of this insole intensifies its strongly stimulating effect. Gentle stimulation to the toes increases the function of the Reflex insole.

The somewhat stronger arch support provides pleasant wearing comfort. Suitable for comfortable shoes.

Recommended material: PU-Material white

Cover: pedsilver (silver-coated textile fabric with antiseptic climate for smell reduction and high comfort)

INSOLES

MEASUREMENT - ANALYSIS DESIGN

Every valinos is produced individually according to the customer's foot measurements. To do so, the foot shape is pressed in memory foam, or the customer's feet are measured. Which measurement system is used for measuring, makes no difference for further processing.

CERTIFIED MATERIALS

Since our materials form the basis of valinos, only certified raw materials of proven quality are used. This enables all-round problem-free walking and makes valinos a shoe that can be worn every day.

CRAFTSMANSHIP

valinos are the result of years of practical experience in foot orthopedics and first-hand knowledge of the latest production technologies. Valinos foot bedding is made to conform to the customer's individual needs in accordance with foot orthopedics.
